EDUCATION

MSc in Biomedical Engineering

Technical University of Denmark

Aug 2023 – Jul 2025

MEng in Electrical & Computer Engineering

University of Patras, Greece

Oct 2018 – Jul 2023

Overall GPA: 7.65/10 (Graduated 15th/350, part of the 2.5% of students that graduated on time)

Major GPA: 8.79/10

Specialization: Computer Science

EXPERIENCE

Radiometer Medical A/S

Electronics & Software Engineer - Test & Manufacturing Processes (Part-time)

September 2023 – ongoing

Responsible for performing hardware and software tests on medical devices.

Group of Translational Neurology Research-NKUA

Research Assistant

October 2022 – ongoing

Main responsible for the technical development and implementation of projects focused on neurological disorders, employing advanced machine learning techniques in data analysis and neuroimaging.

University of Patras

Research Assistant

Spring 2023

Project: Personalised knee geometry modeling based on multi-atlas segmentation.

EnzyCeuticals PA

Data Science Intern

September 2022 – December 2022

A study using the KNApSAcK Database and machine learning techniques to identify and group species with specific metabolites for the development of cosmetics and pharmaceuticals.

Bionos Biotech S.L.(Erasmus+ Placement)

Software Engineer Intern

June 2022 – August 2022

Valencia, Spain

Built data processing web applications using R and Python which replaced many manual processing tasks.

Improved volunteer management system using statistics, resulting in a faster volunteer selection process.

Patras Junior Codecamp

November 2021

Teaching programming to high school students through two lectures and workshops on the topics of Computer Visualizations & Computer Applications

SELECTED PROJECTS

SSVEP Signals classification in BCIs

January 2024

Investigated a range of classification approaches for SSVEP signals, encompassing both conventional signal processing methods and advanced deep learning algorithms. [\[code\]](#)

(Course: Brain-Computer Interfaces, Prof. Sadasivan Puthusserypady)

Automatic illness prediction using Large Language Models and Answer Set Programming

Spring 2023

Developed an illness prediction system by integrating Large Language Models with Answer Set Programming to analyze patient data for early diagnosis. [\[code\]](#)

Drug Formulation Problem

Spring 2023

Developed a solution for the drug formulation problem using linear programming techniques. [\[code\]](#)

(Course: Linear & Combinatorial Optimization, Prof. Sofia Daskalaki)

Identifying Parkinson's Disease through Speech Analysis

December 2022

Analyzing tabular data to identify patterns and markers indicative of Parkinson's Disease. [\[code\]](#)

(Course: Personalized Biomedicine and Telemedicine Systems, Prof. Kalliopi Dalakleidi)

Built a solar system simulator using C++ & OpenGL. [\[code\]](#)

(Course: Graphics & Virtual Reality, Prof. Konstantinos Moustakas)

ACHIEVEMENTS

Motor Imagery Brain Computer Interface for Rehabilitation after a Brain Stroke Episode

November 2022

1st Prize in the competition organized by the [AI Hub](#) at the University of Patras.

IEEEExtreme 16.0 Competition

October 2022

Developed solutions to programming challenges during the 24h competition.

Placed globally at the top 4% among 6373 teams.

PUBLICATIONS

2024

"Semi-automated, deep-learning based Segmentation and Analysis of Mouse Brain Stroked Tissues." (In Preparation)

Collaboration between [VVR Group-University of Patras](#), [Group of Translational Neurology Research-Medical School of University of Athens](#) and [Institute for Stroke and Dementia Research, Munich](#).

VOLUNTEER ACTIVITIES

Chairperson

June 2022 – June 2023

[IEEE Student Branch-University of Patras](#)

Organising educational activities, overseeing scientific groups and committees.

Over 50 active members and more than 15 activities organized during my mandate.

Biomedical Engineering Scientific Group Coordinator

October 2022 – June 2023

[IEEE Student Branch-University of Patras](#)

Giving weekly lectures on topics such as Machine/Deep Learning and their applications in the biomedical field.

Coordinating individual projects for a team of over fifteen (15) students.

Head of PR

October 2021 – September 2022

[IEEE Student Branch-University of Patras](#)

Responsible for Public Relations

Social Media Management

SKILLS

Strong skills in Python, R, Matlab. Good knowledge of C, C++.

Very good knowledge of version control systems.

Knowledge of Linux/Unix environments.

Experience with machine/deep learning (PyTorch, Tensorflow) and data processing & analysis.

LANGUAGES

Greek (native speaker), English (fluent), German (beginner), French (beginner)
